keserne returned from maneuvers in the JEORGENTHAL(. 51/J 05) area. AT juns of 45, 57, 76 and 102 mm cellber were observed with the units. The latter type AT jun had only recently been issued to the troops. It was said that, during maneuvers near COTMA, this AT jun had been tested in firing, with one armor-piercing shell allegedly penetrating four houses without detonating.
